The power to protect

We are LESCO

Four facts about LESCO

Leaders in Sustainable Change

We are passionate about developing a sustainable organisation that supports local talent and infrastructure. In doing so, we have been able to meet a number of the United Nations 17 Sustainable Development Goals.

Guaranteed Product Quality and Safety

We produce our range of products at competitive pricing with high quality & safety for the local market. All products adhere to local standards and are SABS accredited. We are renowned for our strict quality control and response time to any specification changes.

Employing the Unemployable

Through our community development programmes, we have been able to provide work opportunities to any class of labour, from low-medium and high functioning disabled, women to the youth.

Rich History of Success

Founded in 1999 by David Shapiro, we have a 23-year track record under the LESCO Manufacturing name. **Did you know that our roots can be traced back to 1958 to Switch King - a company founded by Natie Shapiro, David's father?**

APOLLO

Made by us in RSA, with you in mind.

As South Africans, we take great pride in our identity. Regardless of where you travel across the globe, spotting another South African is always effortless. We are a distinctive group of individuals; welcoming, benevolent, and hospitable, all while embodying an entrepreneurial spirit with a one-of-a-kind perspective. We excel in creating revolutionary solutions. These are the very same qualities that we have incorporated into our business. We have established a reputation for dependable, cutting-edge electrical products and accessories that are built upon these principles. Moreover, nobody knows the South African landscape better than we do.

With our Apollo products, you no longer need to compromise on style or safety for the sake of affordability.

Now, isn't that switched on?

Actually the thinnest on the market

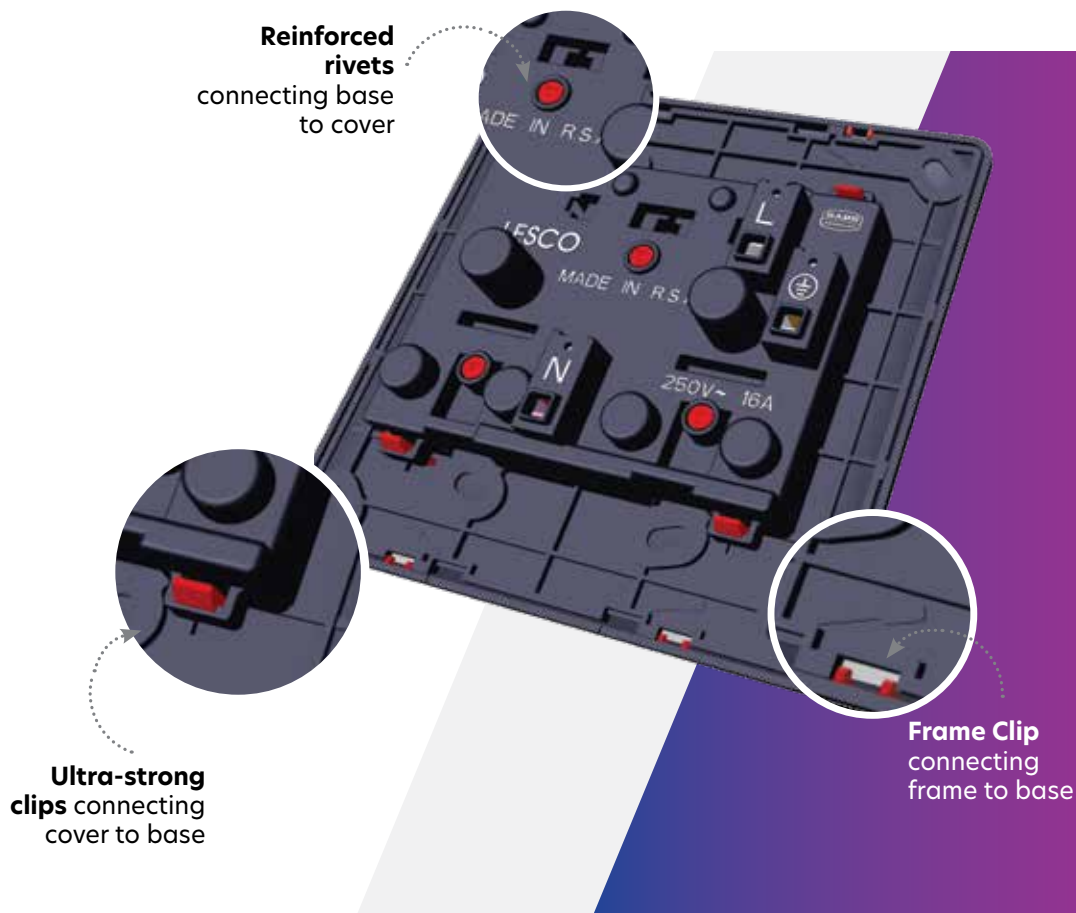

At 6.9mm, we have the
sleekest, slimmest profile on
the market - **seamless style,**
at your fingertips.

Slim and ultra-strong

Lesco's products feature a slim and ultra-strong design that embodies innovation and world class quality standards.

Our team puts each product through rigorous testing in accordance with SABS specifications. From impact testing to glo-wire testing, our products can withstand the most arduous of tests and is a reliable, dependable product.

Stylish expression through contemporary colours

The Apollo range features a choice of 3 colours all finished in a modern matt finish. Contemporary White, Edgy Sapphire Black and Elegant Gold.

Equally at home in an edgy, urban industrial style apartment, featuring exposed brickwork, concrete screed and shades of grey, to a light, airy all-white contemporary interior or a tasteful space featuring a palette of neutral tones and textures.

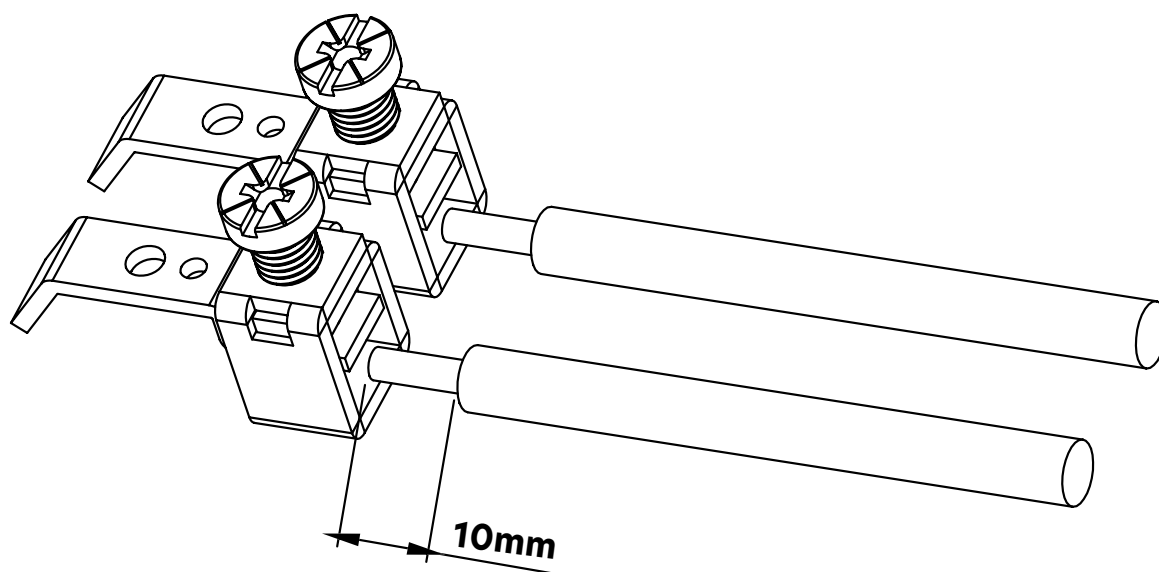

It's what the best-dressed homes are wearing.

Available in three modern colours:

We are committed to doing good

We do good.

The bottom line is that we are committed to doing good.

Our hiring practices prioritize inclusivity by providing opportunities for low to high-functioning disabled individuals who may have been overlooked elsewhere.

Our rigorous research and development process, coupled with exceeding international safety standards, ensures that our products meet the highest level of safety and world class quality, which is important not just for our customers but for our own families as well.

Rather than focusing on exclusivity, we aim to be more inclusive by incorporating thoughtful touches into our products, such as touch-sensitive markings on our Apollo range for those who experience the world through touch.

**Touch-sensitive
Markings**

500 Million

500 million is no small number. It represents the vast array of innovative electrical products and accessories that we, a proudly South African company, have produced for over three generations.

Our products are designed with both style and safety in mind, and we are able to offer them at competitive prices by avoiding the currency fluctuations and shipping delays that often impact imports. We pass these savings onto our valued customers, as well as our retailers and wholesalers.

Switch to Local.
Switch to Safety.
Switch to Affordability.
No Compromise.

Make the switch to Apollo.
Made by us in RSA, with you in mind.
